

**MASTER**  
**BIOMATERIALS FOR TISSUE ENGINEERING**  
**(BioTE)**  
**2nd Year, 1st Semester**

Day	Hour	Activity	Class/Lab	Online
Monday	16:00-18:00	C - Nanobiototoxicology –Marius Radulescu	I 103 Week 1-8	Week 9-14
	18:00-20:00	C - Mechanisms of tissue regeneration and remodeling –Florin Iordache	I 103 Week 1-8	Week 9-14
Tuesday	14:00-16:00	Scientific and practical research	Department	
	16:00-18:00	C – Ethics	-	Week 1-14
	18:00-20:00	Scientific and practical research	Department	
Wednesday	16:00-17:00	C - Medical imaging for tissue reconstruction and regeneration –Gabriela Niculescu	D-205	Week 1-3
	17:00-19:00	L - Medical imaging for tissue reconstruction and regeneration –Gabriela Niculescu	D-205	Week 1-3
Thursday	16:00-17:00	C - <i>In vitro</i> and <i>in vivo</i> models for tissue reconstruction and regeneration –Anca Hermenean	CAMPUS Center	-
	17:00-20:00	L - <i>In vitro</i> and <i>in vivo</i> models for tissue reconstruction and regeneration; –Anca Hermenean	CAMPUS Center	-
Friday	8:00-16:00	Scientific and practical research	Department	-
	16:00-18:00	C - Advanced techniques for the characterization of active biological substances –Dan Eduard Mihaiescu	-	Week 1-7
	16:00-20:00	L - Advanced techniques for the characterization of active biological substances –Alexandru Grumezescu	CAMPUS Center Week 8-14
